

NAME: ANKAMAH JOYCE YEBOAH

INDEX NUMBER: UEB0988725

CLASS: ELECTRICAL AND ELECTRONIC ENGINEERING A

COURSE: ACADEMIC WRITING SKILLS

1. What is academic writing?

Academic writing is a formal style of writing used in universities and scholarly publications. It is characterized by clear, concise, and evidence-based arguments, as well as a logical structure and objective tone.

2. Why is evidence important in academic writing?

Evidence is essential in academic writing because it supports claims, strengthens arguments, and enhances the credibility and reliability of the information presented.

3. What is the difference between a primary and a secondary source?

A primary source provides direct or first-hand evidence about an event, object, person, or work of art, such as diaries, interviews, or original research. A secondary source describes, summarizes, or discusses information originally presented elsewhere, such as textbooks, review articles, or critiques.

4. What does hedging mean?

Hedging refers to the use of cautious or tentative language to avoid making overly definite statements.

Example: The results may suggest that students learn better online.

5. Why should students cite sources?

Students should cite sources to acknowledge the original authors, avoid plagiarism, and provide evidence of where their information was obtained.

6. Rewrite one informal sentence in a more academic way.

Informal sentence: Kids use phones too much.

Academic sentence: Many children spend an excessive amount of time using mobile phones.
